

Airspace around Coast Guard Cutters Now Restricted for Drones

By Richard R. Burgess, Senior Editor

ARLINGTON, Va. – The Federal Aviation Administration has declared the airspace in the vicinity of U.S. Coast Guard cutters to be restricted airspace to unmanned aerial systems (UAS).

In a June 16 directive from Coast Guard Headquarters, the commandant of the Coast Guard announced the new policy that “explicit approval is required to fly UAS in the immediate vicinity of a Cutter.”

All UAS are prohibited from flying “within a stand-off distance of 3,000 feet laterally and 1,000 feet above all Cutters operating, transiting, or at port within U.S. territorial waters,” the directive said.

The directive applies to all Coast Guard cutters greater or equal to 65 feet in length, which is the length that distinguishes a cutter from a boat.
