

# BAE Systems to Enhance Maritime Operations and Flight Safety Systems Aboard Large-Deck U.S. Navy Ships and New-Construction Aircraft Carriers

BAE Systems has won a Navy contract to enhance maritime operations and flight safety systems aboard new construction aircraft carriers and large deck amphibious ships. BAE SYSTEMS MCLEAN,

Virginia – The U.S. Navy has awarded BAE Systems a prime contractor position on a new indefinite-delivery/indefinite-quantity contract to enhance maritime operations and flight safety systems aboard new construction aircraft carriers and large deck amphibious ships, to include refueling and complex overhaul ships, the company said in an Aug. 8 release.

BAE

Systems was one of three contractors awarded the opportunity to bid on future integration, engineering, assembly, testing and installation focused task orders awarded throughout an eight-year ordering period. The work will be performed to enhance a variety of distributed systems that provide network capabilities, communications, command and control,

intelligence, and  
non-tactical data management.

“As a  
leading systems integrator, we continuously seek to broaden  
our support to the  
U.S. Navy to advance its C5ISR [command, control,  
communications, computers,  
combat systems, intelligence, surveillance and reconnaissance]  
capabilities,”  
said Mark Keeler, vice president and general manager of BAE  
Systems’ Integrated  
Defense Solutions business. “We are working with our defense  
customers to  
innovate our approach to systems development to better meet  
their ever-evolving  
mission requirements in alignment with construction and  
modernization  
priorities.”

A majority of the work awarded will take place near the U.S.  
Navy’s Test and Integration Facility Complex, alternatively  
known as the C4I-System Innovation Facility, located at Naval  
Information Warfare Center Atlantic in Charleston, South  
Carolina. Additional work is slated for shipyards in  
Pascagoula, Mississippi, Newport News, Virginia, and Norfolk,  
Virginia.
