SAN JUAN, Puerto Rico – The Coast Guard Cutter Willow completed its scheduled aids to navigation service mission around Puerto Rico port and navigable waterways Oct. 17, the Coast Guard 7th District said in a release.

During the eight-day mission, cutter Willow crewmembers serviced 23 aids to navigation and performed eight buoy hull reliefs around island ports and navigable waters in Arecibo, Culebra, Guanica, Guayanilla, Ponce, San Juan, Tallaboa and Vieques.

After the Coast Guard reopened all the ports in Puerto Rico following Hurricane Fiona, the cutter Willow moved up its itinerary to provide scheduled maintenance around the island and further inspect the status of the aids to navigation in the most affected areas from the hurricane.

“The crew and I were happy to be back in Puerto Rico, our second homeport, servicing aids to navigation to facilitate the movement of commerce into Puerto Rico and supporting safe navigation around the island,” said Cmdr. Erin H. Chlum, cutter Willow commanding officer. “We were especially grateful for the opportunity to work in areas affected by Hurricane Fiona to ensure necessary resources, fuel and supplies can reach the island and people in need.”

Cutter Willow is responsible for the maintenance of 246 aids

to navigation throughout the Coast Guard's 7th District, ranging from South Carolina to the Caribbean, including Puerto Rico and the U.S. Virgin Islands as well as Guantanamo Bay and Haiti.

Coast Guard Cutter Willow is a 225-foot sea-going buoy tender homeported in Charleston, South Carolina.
