

Feb. 27 Red Sea Update

USCENTCOM

On Feb. 27, between the hours of 9:50p.m. and 10:55 p.m. (Sanaa time), U.S. aircraft and a coalition warship shot down five Iranian-backed Houthi one-way attack (OWA) unmanned aerial vehicles (UAV) in the Red Sea.

CENTCOM forces identified these UAVs originating from Houthi-controlled areas of Yemen and determined they presented an imminent threat to merchant vessels and to the U.S. Navy and coalition ships in the region. These actions will protect freedom of navigation and make international waters safer and more secure for U.S. Navy and merchant vessels.
