

General Dynamics Electric Boat Awarded \$642M for Virginia-Class Submarine Work

[Release From General Dynamics Electric Boat](#)

GROTON, Conn. (September 26, 2025) – General Dynamics Electric Boat, a business unit of General Dynamics (NYSE: GD), announced today it has been awarded a \$642 million contract modification to a previously awarded contract supporting submarine production. This modification is for a cost-plus-fixed-fee modification to a previously awarded contract (N00024-20-C-2120) for Lead Yard Support and Development Studies and Design efforts related to Virginia-class submarines, as detailed in the U.S. Department of War [contract award](#).

“This contract modification supports our efforts to deliver the submarines our Navy needs as quickly as possible,” said Mark Rayha, president of General Dynamics Electric Boat. “This

funding allows us to continue our design and development efforts in order to sustain and extend our nation's operational overmatch against any potential adversaries. With the support of the administration, the Navy and Congress, we are prepared to deliver the advantage to protect our sailors, our families and our freedom."
