By Program Executive Office Unmanned and Small Combatants (PEO USC) Public Affairs

WASHINGTON – The Navy today exercised a contract option for a fourth Constellation class guided-missile Frigate. FFG 65 will be built by prime contractor Fincantieri Marinette Marine (FMM). The contract option award was \$526,293,001.

First-in-class Constellation (FFG 62) is in production in Marinette, Wisconsin, and sister ships Congress (FFG 63) and Chesapeake (FFG 64) are under contract.

The Constellation class will have multi-mission capability to conduct air warfare, anti-submarine warfare, surface warfare, electronic warfare, and information operations. Specifically, the FFG 62 class includes an enterprise air surveillance radar, Baseline Ten AEGIS combat system, a Mk 41 vertical launch system, communications systems, MK 57 gun weapon system countermeasures, and added capability in electronic warfare and information operations with design flexibility for future growth.

FMM on April 30, 2020, was awarded the contract for the design, construction and delivery of the first ten Constellation Class Frigates.

PEO USC designs, develops, builds, maintains, and modernizes the Navy's expanding family of unmanned maritime systems, mine warfare systems and small surface combatants.
