ARLINGTON, Va. – The U.S. Navy will christen the future USS Jack H. Lucas (DDG 125), the first Flight III Arleigh Burke-class guided-missile destroyer, during a 10 a.m. CDT ceremony on Saturday, March 26, in Pascagoula, Mississippi, the Defense Department announced.

Jacklyn Harold “Jack” Lucas, the ship’s namesake, served as a U.S. Marine during World War II and was awarded the Medal of Honor at the age of 17, making him the youngest recipient. Private First Class Lucas received the award during the Iwo Jima campaign when he hurled himself on two grenades to absorb the explosion with his own body and protect his fellow Marines. Surviving the blast, Lucas lived until June 5, 2008, when he died from cancer. The future USS Jack H. Lucas (DDG 125) is the first combat warship to bear his name.

Chief of Naval Operations Adm. Michael Gilday will deliver the christening ceremony’s principal address. Mississippi’s Sen. Roger Wicker and Rep. Steven Palazzo will attend, along with Meredith Berger, performing the duties of the undersecretary of the Navy; Maj. Gen. Jason Bohm, commanding general, Marine Corps Recruiting Command; and Kari Wilkinson, president of Ingalls Shipbuilding will also provide remarks. In Navy tradition, the ship’s sponsors, Ruby Lucas and Catherine B. Reynolds, will christen the ship by breaking a bottle of sparkling wine across the bow.

“The future USS Jack H. Lucas will serve as a constant reminder of the immense impact actions taken by any one Sailor or Marine can truly have,” said Navy Secretary Carlos Del Toro. “Private First Class Lucas is a national hero and this ship and crew will honor his legacy for decades to come.”

The ship will be the 73rd Arleigh Burke-class destroyer and is one of 20 ships currently under contract for the DDG 51 program. The Flight III upgrade is centered on the AN/SPY-6(V)1 Air and Missile Defense Radar, which enables Flight III ships to perform anti-air warfare and ballistic missile defense simultaneously. The Flight III baseline begins with DDGs 125-126 and continues with DDG 128 and follow-on ships. The future USS Jack H. Lucas will be 509.5 feet long and 59 feet wide, with a displacement of 9,496 tons. The ship will homeport in San Diego.
