

New Coast Guard Cutter Douglas Denman Arrives in Alaska

The crew of Coast Guard Cutter Douglas Denman arrived at the cutter's new homeport in Ketchikan, Alaska, Aug. 19. *U.S. COAST GUARD*

KETCHIKAN, Alaska – The crew of Coast Guard Cutter Douglas Denman arrived in Ketchikan, Alaska on Aug. 19 after a 36-day transit from Key West, Florida, the Coast Guard 17th District said in a release.

Douglas Denman, the Coast Guard's 49th fast response cutter, traveled nearly 7,000 miles from the most southeastern city in the U.S. to the most southeastern city in Alaska, transiting through the Caribbean Sea, the Panama Canal and up the west coast of Central America and the U.S.

Following production of the ship in 2020, the first crewmember arrived in Ketchikan summer of 2021. Since then, the crew has undergone a year of administration and training in preparation to take ownership of the cutter. The engineering department alone attended a total of three months of school in addition to the crew's seven weeks of familiarity training in Lockport, Louisiana, and seven weeks of post delivery availability phase in Key West.

"It's been a long but extremely rewarding journey to get to this point," said Chief Petty Officer Hayes Printy, the cutter's engineering chief. "Seeing the crew's growth throughout the process and being able to make this unit what we want is an experience I will cherish and not forget."

The cutter will be commissioned at the end of September and fully operational in its area of responsibility in Southeast

Alaska where the missions will include law enforcement, fisheries enforcement, search and rescue and national security.

The Douglas Denman is scheduled to be permanently homeported in Sitka, Alaska, upon completion of required shore infrastructure improvements.
