

# Rite-Solutions Included in First Missile Defense Agency SHIELD Contract Award

From Rite-Solutions

MIDDLETOWN, R.I. (December 12, 2025)—Rite-Solutions was awarded the Missile Defense Agency (MDA) Scalable Homeland Innovative Enterprise Layered Defense (SHIELD) contract on December 5th.

The 10-year, \$151 billion MDA SHIELD contract is a multiple-award, Indefinite Delivery Indefinite Quantity (IDIQ) contract aimed at developing an advanced, multi-domain defense system capable of detecting, tracking, intercepting, and neutralizing threats to the United States and its forces across the air, missile, space, cyber, and hybrid domains.

“This marks the first time Rite-Solutions was awarded a contract with the Missile Defense Agency,” says Laurie Carter, Executive Vice President of Business Development. “We are excited to expand the agencies we serve and are thrilled to be a part of the reputable pool of SHIELD awardees.”

Rite-Solutions will support MDA’s goal of improving the speed and agility with which innovative capabilities are rapidly delivered to the warfighter. The scope of work encompasses four primary work areas (Research & Development, Engineering & Production, Operations & Support, and Analysis & IT Services) and includes early science, disruptive technology, production, sustainment, modernization, and facilities work.

“This new vehicle allows us to develop systems that help the

MDA counter ballistic, hypersonic, and cruise missile threats,” adds Rite-Solutions CEO and Co-Founder, Joe Marino. “It’s a perfect opportunity to apply our innovative capabilities in areas such as AI, digital and model-based systems engineering, agile processes, and open systems architecture.”
