SAN DIEGO – The Nimitz-class aircraft carrier USS Theodore Roosevelt (CVN 71), the flagship of the Theodore Roosevelt Carrier Strike Group (TRCSG) returned to its homeport of San Diego Oct. 15 after conducting operations in the U.S. 3rd, 5th and 7th Fleet areas of operation as part of a routine deployment in support of global maritime security operations.

TRCSG is a multiplatform team of ships, aircraft, and more than 6,000 Sailors, capable of carrying out a wide variety of missions around the globe. Deploying units of the strike group include Theodore Roosevelt, Destroyer Squadron (DESRON) 23, Carrier Air Wing (CVW) 11, and the Ticonderoga-class guided-missile cruiser USS Lake Erie (CG 70). While the Arleigh Burke-class guided-missile destroyers USS Russell (DDG 59), USS Halsey (DDG 97) and USS Daniel Inouye (DDG 118) also returned to their respective home ports, Lake Erie and Arleigh Burke-class guided-missile destroyer USS John S. McCain (DDG 56) remain deployed in the 7th Fleet area of operations supporting global maritime security operations.

TRCSG deployed to the Indo-Pacific region to support regional security and stability, keep sea lanes open, and to reassure our allies and partners of the U.S. Navy's unwavering commitment to the region. The strike group was later ordered

to the U.S. Central Command area of responsibility to strengthen U.S. military force posture and capabilities throughout the Middle East in light of escalating regional tensions.

“The strike group’s ability to quickly adjust from operations in 7th Fleet to 5th Fleet is a testament to both the flexibility of our naval forces as well as the strength and training of our Navy Sailors,” said Commander, Carrier Strike Group 9, Rear Adm. Christopher Alexander. “We had the distinct honor to strengthen our skills and relationships with 10 allied and partner nations, demonstrating our nation’s commitment to the freedom of navigation.”

The TRCSG strengthened interoperability through dual carrier operations with the Carl Vinson Carrier Strike Group and Abraham Lincoln Carrier Strike Group, participation in exercise Valiant Shield 2024, and numerous bilateral and multilateral maritime exercises in the Philippine and South China seas as well as in the U.S. Central Command area of responsibility.

Notable key leader engagements and visits aboard Theodore Roosevelt included the president of the Republic of Korea, chief of naval operations for the Republic of Korea Navy, lieutenant governor of Guam, U.S. Pacific Fleet commander, U.S. 7th Fleet commander, Republic of Singapore Navy fleet commander, U.S. ambassadors to the Republic of Korea, Singapore, Thailand and Qatar, and senior officers from the armed forces of the Japan Maritime Self-Defense Force, Republic of Korea and Royal Thai Navy, among others.

The deployed Sailors from the TRCSG demonstrated their proficiency in enhanced maritime security operations through more than 9,000 sorties including 21,000 flight hours, 28 replenishments-at-sea, and more than 71,000 nautical miles traveled.

Ships of the TRCSG conducted routine port visits to Bahrain, Diego Garcia, Guam, the Republic of Korea, Singapore and Thailand.

“The crew worked incredibly hard and maintained mission focus this entire deployment,” said Capt. Brian Schrum, commanding officer, Theodore Roosevelt. “I am extremely proud of our Sailors and the work accomplished across the world’s oceans to keep our nation safe at home.”

CVW 11 consisted of nine squadrons: the “Blue Blasters” of Strike Fighter Squadron (VFA) 34, the “Fist of the Fleet” of VFA-25, the “Flying Checkmates” of VFA-211, the “Black Knights” of VFA-154, the “Liberty Bells” of Airborne Command and Control Squadron (VAW) 115, the “Rooks” of Electronic Attack Squadron (VAQ) 137, the “Wolf Pack” of Helicopter Maritime Strike Squadron (HSM) 75, the “Eightballers” of Helicopter Sea Combat Squadron (HSC) 8 and the “Rawhides” of Fleet Logistics Support Squadron (VRC) 40.

As an integral part of U.S. Pacific Fleet, Commander, U.S. 3rd Fleet operates naval forces in the Indo-Pacific and provides the realistic and relevant training necessary to execute the U.S. Navy’s timeless role across the full spectrum of military operations—from combat missions to humanitarian assistance and disaster relief. U.S. 3rd Fleet works in close coordination with other numbered fleets to provide commanders with capable, ready forces to deploy forward and win in day-to-day competition, in crisis, and in conflict.
