

Truman returns to sea following repairs

By USS Harry S. Truman (CVN 75) Public Affairs, Feb. 24, 2025

MEDITERRANEAN SEA – The Nimitz-class aircraft carrier USS Harry S. Truman (CVN 75) is underway conducting routine flight operations in the U.S. Sixth Fleet area of operations, Feb. 24, after departing Souda Bay, Greece, on Feb. 23, following completion of an emergent repair availability (ERAV).

“Our ship remains operationally ready to complete deployment with mission and purpose on full display by the entire crew,” said Capt. Chris Hill, commanding officer of Harry S. Truman. “We are out here launching and recovering aircraft, ready to ‘Give ‘em Hell’ with combat credible power.”

The U.S. Navy’s ability to rapidly repair its warships anywhere in the world is a testament to our lethality and the warfighting advantage of relationships with Allies and partners.

Led by Forward Deployed Regional Maintenance Center (FDRMC), Truman completed the five-day ERAV at Naval Support Activity (NSA) Souda Bay, Greece. In an all-hands effort, Sailors worked with FDRMC personnel, Norfolk Naval Shipyard, and local industry partner Theodoropoulos Group to assess damage, develop a repair plan, and restore weathertight integrity to the ship following the collision on Feb. 12.

“FDRMC is focused on keeping our forward-deployed naval forces mission-ready across 5th and 6th Fleets, maintaining critical combat readiness for the ships and their Sailors,” said Capt. Mollie Bily, FDRMC commanding officer. “The rapid repair effort on Truman was a testament to our expeditionary maintenance expertise and the exceptional collaboration with

our Norfolk Naval Shipyard teammates and industry partners.”

Since deploying, Carrier Air Wing (CVW) 1 has flown over 5,500 sorties, including two self-defense strikes into Houthi-controlled Yemen territory and a large force strike against ISIS-Somalia targets in Northeast Somalia in coordination with U.S. Africa Command. The Harry S. Truman Carrier Strike Group continues to provide maritime security and regional stability in support of its component commanders.

The carrier strike group includes the flagship USS Harry S. Truman (CVN 75); Carrier Air Wing (CVW) 1, with eight embarked aviation squadrons; staffs from CSG-8, CVW-1, and Destroyer Squadron (DESRON) 28; the Ticonderoga-class guided-missile cruiser USS Gettysburg (CG 64); and three Arleigh Burke-class guided-missile destroyers, USS Stout (DDG 55), USS The Sullivans (DDG 68), and USS Jason Dunham (DDG 109).

HSTCSG’s mission is to conduct prompt and sustained combat operations at sea and maintain a forward presence through sea control and power projection capabilities. For more information, visit DVIDS at <https://www.dvidshub.net/unit/CVN75>.
