

# U.S. Navy awards GE Aerospace Performance Based Logistics Contract for Avionics

From GE Aerospace, Feb. 24, 2025

CINCINNATI – February 24, 2025 – GE Aerospace has been awarded a contract to provide performance-based logistics (PBL) avionics support for the F/A-18, AV-8B and AH1-Z aircraft globally.

“Supporting the safety and operations of our armed forces is one of the most important things we do,” commented Matt Burns, general manager of Avionics Systems for GE Aerospace. “This five-year contract builds on a series of previous PBL contracts with our team supporting 30 years of 99% availability for the U.S. Navy.”

Under the contract, GE Aerospace will support stores management systems used in mission critical operations for the U.S. Navy fleets of F/A-18, AV-8B and AH1-Z aircraft globally. In addition to the supply, warehousing, and logistics management of the spares, GE Aerospace provides depot level repair of aircraft units and subassemblies and fleet support at major naval bases providing training and technical support.

GE Aerospace’s stores management systems provide scalable architectures with redundant centralized or distributed stores management while maintaining standard stores station interfaces and safety critical release control. Providing the tactical and operational ability to further protect troops while accomplishing their missions, GE Aerospace has delivered more than 5000 stores management systems to numerous fourth and fifth generation fixed-wing and rotary-wing military aircraft operators worldwide.
