

UK Royal Navy takes NATO Response Force Helm, with Carrier as Flagship

The UK Royal Navy aircraft carrier HMS Prince of Wales is pictured at sea, working with NATO task groups, during the alliance's Dynamic Mariner exercise off the United Kingdom in late September 2021. The exercise was part of the certification process for the U.K. taking command of the NATO Response Force (Maritime) for 2022. *NATO MARITIME COMMAND*

The UK Royal Navy has taken command of the NATO Response Force (Maritime) task force, with a transfer-of-command ceremony held onboard the U.K. aircraft carrier HMS Prince of Wales at HM Naval Base Portsmouth, U.K. on Jan. 11.

NRF-M command rotates annually and the U.K. has handed over from the French navy. Under Rear Adm. Michael Utley, commander, U.K. Strike Force and NATO high-readiness maritime force commander, the U.K. will have the helm for 2022, with Prince of Wales as flagship in the role of afloat command platform.

In the ceremony onboard the carrier, the ship's commanding officer, Capt. Steve Higham said as Prince of Wales begins its service life, it was "entirely fitting that we start that journey as a NATO aircraft carrier." During 2022, Prince of Wales will lead maritime task groups across the Euro-Atlantic theatre, including in the Arctic and the Mediterranean. The carrier will also remain at very high readiness to respond as required to contingency operations.

Sister carrier HMS Queen Elizabeth deployed to the Indo-Pacific during its own inaugural deployment, between May and December 2021.

“If [that] deployment was a manifestation of our Prime Minister’s ‘Global Britain’ vision, then Prince of Wales’ year as a NATO command platform is a clear statement of intent by our government of the U.K.’s equally important and steadfast commitment to NATO,” Higham said. The U.K. is resolute and enduring in its commitment to security, stability, and peace in the Euro-Atlantic theater, he added.

Integrating U.K. carrier strike capability with NATO, the carrier and its multinational battle staff will work with ships, aircraft, submarines and drones from allies and partners, the CO said.

In a media briefing onboard Prince of Wales prior to the ceremony, Higham said, in the context of challenges posed by potential adversaries, “the great advantage for us is that we will be working with partners and allies from across the NATO alliance, and that strength in depth is what gives us the real edge.”

The carrier will embark airwing and other capabilities as required for specific operations.

“My job as the CO of Prince of Wales, as the flag captain, is to make sure this deck is ready to receive helicopters, aircraft and drones from across the NATO alliance, and be ready to work alongside ships and submarines from our partners and allies,” he said. The job of a command platform is to be flexible and ready to respond, he added.

Higham noted that the ship had received an uplift in command-and-control capability to enable interoperability with NATO partners.

The 65,000-ton carrier was commissioned in December 2019, was

declared fully operational on Sept. 30, 2021, and spent much of 2021 in operational generation for the very-high-readiness role as Naval Response Force -Maritime flagship.
