CORPUS CHRISTI, Texas – The U.S. Navy commissioned Independence-variant littoral combat ship USS Kingsville (LCS 36) at the Solomon P. Ortiz Center, August 24.

In the week preceding the ceremony, the crew built ties with their namesake city and visited the King Ranch for a luncheon at the Henrietta Memorial Museum and a tour of the historic ranch. The crew visited with the mayor of Kingsville, the ship's sponsor, Ms. Katherine Kline, and her parents Dr. Rich and Mrs. Sue Sugden. The U.S. Navy prides itself on a strong tradition of the relationship between a ship and their namesake community or family. These enduring ties at the beginning of Kingsville's service will strengthen bonds between the ship and the communities of Kingsville and its commissioning location of Corpus Christi.

Leaders and distinguished guests wished the crew of Kingsville fair winds and following seas as they brought the ship to life and began its commissioned service.

Assistant Secretary of the Navy for Financial Management and Comptroller, the Honorable Russell Rumbaugh, delivered the commissioning ceremony's principal address. The ceremony also

featured remarks from Deputy Chief of Naval Operations for Integration and Capabilities and Resources, Vice Adm. Brad Skillman, United States Representatives, the Honorable Vicente Gonzalez, Jr. and the Honorable Michael Cloud, the Mayor of Kingsville, the Honorable Sam Fugate and the Mayor of Corpus Christi, the Honorable Paulette Guajardo.

“A ship commissioning is one of the ways the U.S. Navy keeps itself tied to the nation it serves. It’s why we name ships after cities and states. And what better moment to celebrate our long and intimate relationship than commissioning a ship named after Kingsville,” said Rumbaugh. “This ship will provide maritime security in each of our fleet operations. We in the Department of the Navy are proud of the Littoral Combat Ships.”

During the ceremony, Kingsville’s commanding officer Cmdr. Ludwig Mann III, reported the ship manned and ready, and ship sponsor, gave the traditional order to “Man our ship and bring her to life!” Helping to welcome the ship to the fleet, T-45C aircraft assigned to VT-21 at Naval Air Station Kingsville flew over the ship as the crew ran aboard the ship – bringing her to life.

“This experience is a unique one and should be cherished. You will create a culture that I am sure will last as the Kingsville way for decades to come,” said Skillman. “To the triad, Cmdr. Mann, Cmdr. Kavanaugh, Command Senior Chief Moran, I also know you and the crew are ready to get out there and do the Navy and the nation’s business around the globe. Tough and confident, go get them.”

The night prior to commissioning, the Kingsville Commissioning Committee held an evening reception onboard the USS Lexington Museum where the committee recognized the crew of Kingsville for their service and dedication that ended with a fireworks display.

Kingsville, the 18th Independence-variant LCS, is the first to bear this name and pays homage to the city of Kingsville and the King Ranch. The ship's sponsor is a member of the sixth generation of the King Ranch family, descendants of steamboat captain Richard King who founded in the King Ranch in Kingsville in 1853. The King Ranch continues to foster a relationship with Naval Air Station Kingsville which was founded in 1942 and is located three miles from the city's center.

Independence-variant littoral combat ships are fast, optimally manned, mission-tailored surface combatants that operate in near-shore and open-ocean environments, winning against 21st-century coastal threats. LCS integrate with joint combined, manned and unmanned teams to support forward presence, maritime security, sea control, and deterrence missions around the globe.

The mission of CNSP is to man, train, and equip the Surface Force to provide fleet commanders with credible naval power to control the sea and project power ashore.
